

# Mission Trips

Redeemer plans short-term mission trips with a desire to impact reached and unreached people with the gospel and love of Jesus Christ.

Currently, we have partnered with [Living Waters of the World](#) to help maintain water purification systems in villages in the Dominican Republic.

We serve to not only assist indigenous people with their daily needs, but also minister to them in unique ways. As examples, we host VBS to share the Good News of Jesus and teach water health classes to reduce waterborne diseases, leading to healthier families.

Planned trips and how to participate are announced in our weekly email newsletter, on our mobile app, on our website [EVENTS](#) page, and in the Sunday worship bulletin.
